INSTALLATION HIGHLIGHTS

• Seamless Integration

The AV system, installed by Pro-technical, was carefully implemented to complement the venue's historic features while providing a world-class entertainment experience.

• Spectacular Features

In addition to the cutting-edge video distribution system, the venue boasts a two-metre glittering mirror ball and a 17-meter-long bar, enhancing its vibrant entertainment experience.

KEY FEATURES & BENEFITS

1

Premium Sports Viewing Experience

BOX Bar is believed to be the first sports bar in the Midlands, possibly the UK, to feature 4K SKYQ across its entire AV system.

2

Seamless Content Control

The Netvio GO app provides intuitive control over video distribution, allowing staff to easily switch between up to four simultaneous sports broadcasts across different screens.

3

Iconic Venue, Modern Technology

The domed ceiling, stained glass windows, and intricate stone columns have been preserved and enhanced with a state-of-the-art AV system, delivering both aesthetic and technological excellence.

CONCLUSION

The BOX Bar Nottingham project demonstrates how Netvio's JP4 Series AVoIP can power a high-end sports and entertainment venue, offering unparalleled video quality, effortless control, and a seamless customer experience.

With its combination of historical charm and modern AV innovation, BOX sets a new standard for sports bars across the UK.
